SATELLITE EVENT FOR THOSE WORKING WITH CORPORA:	
THURSDAY 28. SEPTEMBER	S15, Seminargebäude
14:00-18:00	*Making the most out of Sketch Engine: A corpus linguistics workshop.* – Elen Le Foll –

Topics (could) include:
- Tokens and types
- Raw vs. normalised frequencies (and normalisation units)
- Dispersion
- Tokenisation, part-of-speech tagging and lemmatisation in Sketch Engine
- Advanced corpus searches with Corpus Query Language (CQL)
- Corpora available in Sketch Engine: focus on the TenTen family of corpora
- Building your own corpus from text files and/or web data
- XML annotation for metadata and linguistic annotation
- Error annotation (if of interest)
- Collocation and collocational measures (if of interest)
- Strengths and limitations of Sketch Engine
- Overview of alternative corpus tools and banks of freely available corpora
